Want your set up to stand out from the rest? Take a look at these newly released Silver Diamond Plated Case Series from Odyssey Cases. Odyssey was the first to bring a full line of Silver Diamond Plated DJ Cases to the market, and now this classic ATA design re-emerges in the Flight Zone® case series. So why not add some flare as you move the crowd with one of these 10inch or 12inch DJ Mixer cases and a pair of large format CD/Media Player Cases, all Diamond Plated.

For additional elevation, you can use the lids as a stacking base, very convenient when using those lower tables or for taller DJs, and each also features a V-Cut™ front angled removable panel design for easy access to your gear's front controls. Also available are the FTTDIA and FTTDIAII Silver Diamond Plated turntable cases.
